Highly Efficiently Exam Tool and Effective Exam Practice Materials

Exam : **C4090-452**

Title : IBM Storwize V7000 Technical Solutions V2

Vendor : IBM

Version : DEMO

NO.1 A customer is looking for a cost effective solution that will centralize the management of their existing IBM DS5100 with 120 TB of storage, and EMC CX4-120 with 50 TB storage. The customer also wants the ability to add capacity to the solution as needed.

Which IBM solution best fits the customer requirements?

- A. DS5020
- B. StorwizeV7000
- C. N series Gateway
- D. SAN Volume Controller

Answer: B

NO.2 A customer needs a new midrange disk system for their iSCSI-only environment. The Storwize V7000 meets all their requirements except that they are concerned that there may not be enough bandwidth available from the iSCSI ports on the Storwize V7000 control enclosure to meet the performance requirements.

What should be proposed to meet the customer needs?

- A. IBM DS5020
- B. IBM Storwize V7000 with 10Gb SCSI
- C. IBM Storwize V7000 with 2 control enclosures
- D. IBM Storwize V7000 with external storage license

Answer: B

NO.3 A customer requires a storage solution that will manage both block and file storage, with a performance requirement of 5,000 file ops. The customer expects that 80% of the storage will be block storage, and 20% will be file storage with an ILM strategy in the file system.

What storage solution should be proposed?

- A. SONAS
- B. IBM N6240
- C. XIV system
- D. Storwize V7000 Unified

Answer: D

NO.4 The same zoning considerations apply for the Fibre Channel connectivity' of the Storwize V7000 Unified and a standalone Storwize V7000, with one difference.

What is that difference?

- A. That it also uses the iSCSI port for the Storwize V7000 Unified
- B. That there are 8 FC ports available (4 ports per node canister)
- C. That there are only 2 ports available (1 port per node canister)
- D. That there are only 4 FC ports available (2 ports per node canister)

Answer: D

NO.5 What are the possible options used by the Storwize V7000 and Storwize V700FJ Unified to send event notifications to the storage administrator?

- A. CLI, HTTPS, SSH

- B. iSCSI, LDAP, CIMOM
- C. Email, SNMP, Syslog
- D. Syslog, Tivoli Storage Productivity Center, LDAP

Answer: C

NO.6 IBM Storwize V7000 Unified supports which of the following remote copy types?

- A. Asynchronous only for both block and file data
- B. Synchronous and asynchronous for both block and file data
- C. Synchronous and asynchronous for block data, synchronous for file data
- D. Synchronous and asynchronous for block data, asynchronous for file data

Answer: D

NO.7 Which statement best describes a difference in replication on the Storwize V7000 Unified between the block volumes and the file volumes?

- A. Both block and file volumes require Metro/Global Mirror licenses.
- B. Block volumes can replicate over the Ethernet ports or Fibre ports.
- C. File volumes must replicate through the block portion of the system.
- D. File volumes replicate over the Ethernet ports without the use of a SAN router.

Answer: D

NO.8 A customer requires iSCSI and CIFS access for a Storwize V7000 Unified solution. How many Fibre Channel ports will be required for host connectivity?

- A. 0
- B. 2
- C. 4
- D. 8

Answer: A

NO.9 What Storwize V7000 configuration function is deployed to perform a tie-break task to address a problem when a node canister is shutdown or goes offline?

- A. I/O group(s)
- B. Quorum disks
- C. Clustered system
- D. Mirrored write cache

Answer: B

NO.10 A customer has asked the technical specialist what host information is needed to allocate storage on a Storwize V7000 SCSI attached system.

What information should the technical specialist request?

- A. IQN
- B. WWNN
- C. WWPN
- D. IP address

Answer: A
