Highly Efficiently Exam Tool and Effective Exam Practice Materials

Exam : **C9030-634**

Title : IBM z Systems Technical
Support V6

Vendor : IBM

Version : DEMO

NO.1 A zBC12 high growth customer complains about the necessity to add more FICON channels because of additional tape and DASD devices recently added to the site.

What other option could a technical specialist suggest?

- A. Add zHPF for FICON channels
- B. Add Optica converters for I/O devices
- C. Add a SAN switching device between processor and I/O devices.
- D. Add ESCON channels for new I/O devices

Answer: C

NO.2 In the z/OS environment, what provides access to cryptographic functions through callable services and provides administration facilities for loading the master keys into the coprocessors:

- A. PKDS
- B. CEX5A
- C. RACF
- D. ICSF

Answer: D

NO.3 A customer wants to investigate cloud solutions to help them better manage their development environment.

Which cloud capability would help them achieve their goal?

- A. On-demand self-service
- B. Broad network access
- C. Pay-as-you-go service
- D. Measured service

Answer: A

NO.4 A customer has an IBM z13 and is using z/OS for XML file handling. This customer needs a solution which allows compression of large XML files in DEFLATE file format for cross platform data exchange with third parties.

What should be recommended to use as a Proof-of-Concept?

- A. zEDC Express
- B. Flash Express
- C. 10 GbE RoCE Express
- D. Compression Coprocessor on IBM z systems processor chip

Answer: C

NO.5 A customer has a z13 server. They plan to use STP for accessing an external time source (UTC). Which of the following techniques can be used to get the time information in this scenario?

- A. SE dial out to an external time reference
- B. Configuration of a NTP client on the HMC which assesses an external NTP server
- C. Use of an external time reference (9037-002) in an STP Mixed CTN (Coordinated Timing Network)
- D. Edit PR/SM to connect oscillator cards to tlsdate server

Answer: C

NO.6 IBM's Mobile Workload Pricing for z/OS can potentially help a client reduce the cost of:

- A. z/OS Value Unit Edition Software
- B. z Systems New Application License Charge (zNALC) software
- C. One Time Charge (OTC) software
- D. Monthly License Charge (MLC) software

Answer: D

NO.7 65 A customer purchased a second data center and was using it for a warm disaster recovery site for distributed systems.

The customer currently uses another vendor and tape backup for their mainframe DR

If the customer configures replicated disk to the warm DR data center , together with a z Systems server with CBU, they could achieve which of the following?

- A. Improved RTO Improved RPO Electric utility savings
- B. Electric utility savings Control over the DR environment Cost savings over the current DR contract
- C. Control over the DR environment Consistent Network to distributed systems Cost savings over the current DR contract
- D. Improved RTO Improved RPO Control over the DR environment

Answer: B

NO.8 Which opportunity is appropriate to propose Flash Express to a customer?

- A. The customer has paging spikes that cause slow response time.
- B. The customer wants to backup important data for high availability.
- C. The customer application requires high bandwidth communication to another machine.
- D. The customer needs high speed storage for high priority online system datasets.

Answer: A
